

## flydubai expands its network in Poland to three destinations

- The Dubai-based carrier becomes the first UAE national carrier to launch direct flights to Poznan in Poland with a three-times weekly service from 29 October 2023
- Poznan becomes the carrier's third destination including Krakow and Warsaw

**Dubai, United Arab Emirates, 05 May 2023:** flydubai, the Dubai-based carrier, announced today the launch of flights to Poznan in Poland from 29 October, becoming the first UAE carrier to operate direct flights from Dubai.

The start of flydubai's three-times weekly service to Poznan expands the carrier's network in Poland to three destinations including Krakow and the capital, Warsaw. Flights to Poznań Airport (POZ) will operate from Terminal 2 at Dubai International (DXB) on Wednesdays, Fridays and Sundays. flydubai also operates a daily service to Warsaw and a five-weekly service to Krakow, which will increase to a daily service from 26 June 2023.

Ghaith Al Ghaith, Chief Executive Officer at flydubai, said: "we have seen growing demand for travel between the UAE and Poland since the start of our operations to the market in 2018 with the launch of flights to Krakow. We are pleased to see our network expand to three points with the launch of flights to Poznan which will offer our passengers more options for travel to Poland and open up opportunities for more trade and tourism. flydubai is committed to enhancing connectivity between different cultures and we look forward to strengthening links between the two countries."

In 2022 the UAE and Poland strengthened their relationship with a joint economic programme that promotes bilateral business and investment opportunities between the two nations, collaborating in sectors including renewable energy, advanced technologies, agriculture, transportation and tourism.

Commenting on the route launch announcement, Grzegorz Bykowski, Chief Executive Office at Poznań Airport, said: "the announcement by flydubai to launch direct flights between Poznań and Dubai is a milestone for the development of the network of connections from Poznań Airport. Direct flights to Dubai mean that residents of Poznań, Wielkopolska and all of western Poland have access to flydubai's wide network of 120 destinations in 52 countries."

"The new route announcement opens up completely new travel opportunities from Poznań, which we expect to generate additional passenger flows supporting both tourist and business traffic to this part of the world", added Bykowski.

As one of Poland's oldest cities, Poznan is known for its rich history and grand architecture, including the Renaissance Old Town. Located in the west-central part of the country, the city today has become a major economic, trade and tourism hub.

#### About flydubai

From its home in Dubai, flydubai has created a network of 120 destinations served by a fleet of 76 aircraft. Since commencing operations in June 2009, flydubai has been committed to removing barriers to travel, creating free flows of trade and tourism and enhancing connectivity between different cultures across its ever-expanding network.

flydubai has marked its journey with a number of milestones:

**An expanding network:** Created a network of 120 destinations in 52 countries across Africa, Central Asia, the Caucasus, Central and South-East Europe, the GCC and the Middle East, and the Indian Subcontinent.

**Serving underserved markets:** Opened more than 75 new routes that did not previously have direct air links to Dubai or were not served by a UAE national carrier from Dubai.

**An efficient single fleet-type:** Operates a single fleet-type of 76 Boeing 737 aircraft and includes: 30 Next-Generation Boeing 737-800, 43 Boeing 737 MAX 8 and 3 Boeing 737 MAX 9 aircraft.

**Enhancing connectivity:** Carried more than 90 million passengers since it began operations in 2009.
